RE: Latex Free Statement for Procedural Products

Due to customer concerns, regarding allergic reactions to latex, materials and components that contain natural rubber latex are not used in our products or in our manufacturing processes.

MEDIVATORS product design and development processes require an extensive evaluation of product materials. This includes evaluating material toxicity prior to making changes to existing products or releasing new products onto the market.

All procedural products manufactured by Medivators Inc. are 'Not made with natural rubber latex'.

Should you have any further questions, please contact MEDIVATORS Customer Support at 1-800-444-4729
