

Minntech Hollow Fiber Cartridge Filters

These filters have been engineered to meet the highest standards of particle and bacterial removal from water used in endoscope reprocessing.

The polysulfone material that makes this filter unique has been patented and is available only from Minntech.

During endoscope reprocessing, the asymmetric hollow fiber design and construction of this 'absolute' filter delivers:

- assurance of removal of bacteria
- greatly increased filter use-life
- superior flow of water on demand
- chemical compatibility with a wide range of disinfectants

Minntech Hollow Fiber Filters

Dependable, long lasting filters for endoscope reprocessing
