

GUARANTEE OF RAPICIDE® PA READY-TO-USE COMPATIBILITY WITH FLEXIBLE ENDOSCOPES

MEDIVATORS® RAPICIDE® PA Ready-to-Use high-level disinfectant (HLD) and sterilant, when used as directed in a MEDIVATORS DSD-201 or SSD-102 endoscope reprocessor that has been retrofitted with the appropriate valves, pump materials and lid pistons, or when used manually according to manufacturer instructions, is compatible with all flexible endoscopes. The reprocessor retrofit must be performed by a MEDIVATORS-certified engineer.

Based upon MEDIVATORS extensive battery of pre-market testing and validation protocols, we are quite confident that RAPICIDE PA Ready-to-Use, a peracetic acid based HLD will not only provide for the high-level disinfection of flexible endoscopes, but also will not damage endoscopes (when used as directed). We offer the following guarantee:

If your endoscope is damaged as a result of the proper use of RAPICIDE PA Ready-to-Use HLD in a MEDIVATORS DSD-201 or SSD-102 endoscope reprocessor, or when used manually according to manufacturer instructions, we will pay the full cost of repair for any damage verified to be caused by exposure TO RAPICIDE PA Ready-to-Use.

After initial inspection of your current scope inventory, and the subsequent use of RAPICIDE PA Ready-to-Use HLD in a DSD-201 or SSD-102 endoscope reprocessor or manually use as described above, should any of your pre-inspected flexible endoscopes be functionally or physically damaged (excluding normal cosmetic wear and tear) during the proper use of the disinfectant and reprocessor, MEDIVATORS will pay the full cost for the repair of the damaged endoscope, as described below.

Any claims for flexible endoscope damage relating to the use of RAPICIDE PA Ready-to-Use must be reported to Medivators within two business days following detection of the damage. A complaint record will be opened for the incident at that time.

Assessment of the reprocessor and/or disinfectant-related damage to an endoscope will be conducted by a qualified independent firm or individual that provides inspection and repair of flexible endoscopes. Should such assessment determine that the use of RAPICIDE PA Ready-to-Use (when properly used per manufacturer's instructions) has indeed caused functional or physical damage to the endoscope, MEDIVATORS will pay the cost of repairs to the endoscope that are specifically caused by and related to the use of RAPICIDE PA Ready-to-Use.

MEDIVATORS reserves the right to modify or withdraw this guarantee with 90 days' prior notification.

Sincerely,

Craig Smith
